Announcing Bing Maps for Enterprise Platform End of Life by June 30, 2025

- Attention AgileWeb Users!

Microsoft has announced that Bing mMaps End of Life is June 30, 2025. Microsoft is replacing Bing Maps with Azure maps, AgileWeb will not be supporting Azure maps.

Prior to that date, please check the Web Settings Editor to see if you are using Bing as your map source.

If you have entries in the Value column for either of the Bing setting keys, OR have BingMap.aspx defined in the Value for the DefaultTransfer setting, you will need to change your mapping choice prior to the 06/30/25 date.

Web Settings Editor	
Drag a column header here to group by that column.	
Category	Setting Key
☒ ☐	☐ bing
Web Configuration Settings	BingMapsApiKey
Web Configuration Settings	BingMapTypeId

Other map options are Google Maps or Open Street Maps (see manual for further information - https://agilaire.com/wp-content/uploads/2018/06/AgileWeb_060818_72ppi-1.pdf)
